

USER GUIDE: Welcome to our study planner! While it is very easy to use, users should make sure to read the prompts carefully to avoid

#getting an inaccurate study plan. The information you will be asked to input are:

#the number of assignments you have, whether it has subtasks. For example, if your task is to write a five

#page essay, you can divide it up into 5 subtasks, each paragraph being 1 subtask}.

#you will then be asked to provide the name of each subtask, its time duration, and its start and end dates.

#If the assignment has no subtasks, then you will be asked for the name, time duration, and start and end dates for the assignment or task.
