

## Project Update Template — CSSD1161

Instructions: Fill and complete one copy of this document (in GitHub /docs/updates and publish to wiki) each week or maintain a running copy and update the Week sections below. Keep links accessible to the TA (public or add as collaborator).

### Cover Info

- Team name: Group 3
- Project title: Study Planner
- Members (names & emails):

Salma Abdi ([salma05@my.yorku.ca](mailto:salma05@my.yorku.ca)), Saronica Routh([saronica@my.yorku.ca](mailto:saronica@my.yorku.ca)) ,

Sophia Pimenovsky([sophip@my.yorku.ca](mailto:sophip@my.yorku.ca)), Olivia Su ([olivia5u@my.yorku.ca](mailto:olivia5u@my.yorku.ca))

- Update #: 2 | Date: 2025-10-30 (YYYY-MM-DD)

### Topic: Group 3 Project

At-a-glance:

Overall status	% complete (this week)	Top risk (one line)	Ask for TA/instructor
On track	50%	Running out of time to properly debug and test our project.	How to save user responses in a text file, so they are not lost each time we run the program.

What we shipped/completed this week:

- Part 1 (collection of user's free time to study each day)
- Part 2 (collection of user's assignments and their subtasks)

Evidence & Links (paste URLs):

•[https://github.com/Ephemeral27/Teamwork-and-Communication-Group-3-Project/blob/main/Part\\_1.py](https://github.com/Ephemeral27/Teamwork-and-Communication-Group-3-Project/blob/main/Part_1.py)

•[https://github.com/Ephemeral27/Teamwork-and-Communication-Group-3-Project/blob/main/Part\\_2.py](https://github.com/Ephemeral27/Teamwork-and-Communication-Group-3-Project/blob/main/Part_2.py)

Decisions made (owner, date):

- Work on part 3 / 4 (Olivia and Saronica, week 10)

- Everyone works together to debug and make sure everything runs smoothly

Challenges & risks (severity, mitigation):

- Time management: Managing this project along with other classes
- Group meetings: Arranging meetings that accommodates with everyone's schedules
- Miscommunication: as two people will be working on the same part together (severe)

Plan for next week (task → owner → due date):

- Begin coding part 3/4 → Saronica and Olivia → Week 10
- Debug Part 1 and Part 2 → EVERYONE → Week 10

### Optional Self-Evaluation (per week)

Week	What went well	What was hard	One concrete improvement
4	Part 2 is completed without any issues	It was difficult to get all of the subtasks to fit in the nested collections like I wanted them to.	We now have 1 complete part of the project.
5	Part 1 is complete	It was a bit difficult to find the right	Part 1 and part 2 are complete.

	without any issues	variables to align with part 2.	
6	Started editing and debugging.	There are some issues found in the code.	Fixed some errors, adjusting the code to flow properly.
